PROFILE

Early-career professional with practical experience in workflow automation, systems integration and AI infrastructure. Built client workflows with n8n, APIs and webhooks, structured data in Supabase/PostgreSQL, and provided operational support and troubleshooting.

PROFESSIONAL EXPERIENCE

Venda Tech IA - Automation and AI Agent Infrastructure

Remote | Jan 2026 - Jun 2026

- Built n8n, API and webhook automation from scratch for approximately 10 clients.
- Structured Supabase/PostgreSQL tables for automation and integrations.
- Configured Wtschat/Helena tags, follow-ups and service rules.
- Supported and troubleshoot operations for more than 20 clients.

Multserv - Administrative Assistant, SESMT

Aug 2024 - Nov 2025

- Managed administrative routines, occupational health documents, budgets and data collection.

Mais Poderosa - Sales Associate

Feb 2021 - Jun 2022

- Customer service, cash register operations and inventory control.

SELECTED PROJECTS

jorgetavares.dev

Next.js and TypeScript portfolio with interactive Labs, API contracts, Vercel, n8n and Supabase/PostgreSQL integrations.

L3VEL UP

Clinic dashboard in development for scheduling, clients, service, automation and integrations.
